1. Introduction

Background Information

National Telecom Policy (NTP) - 2012 has one of the goals as Broadband on Demand. It envisages leveraging telecom infrastructure to enable all citizens and businesses, both in rural and urban areas, to participate in the Internet and web economy thereby ensuring equitable and inclusive development. It provides the enabling framework for enhancing India's competitiveness in all spheres of the economy.

Broadband is the infrastructure of the future. The aspirations of a rising India led by its demographic dividend require a robust and reliable backbone of broadband across India. In a country, which is transiting from backwardness to progress on social and economic fronts, affordability of broadband to serve the needs of all is a central policy.

Providing universal and affordable access to broadband to every citizen of India is one of the most critical and important action item for Digital India. With broadband becoming the basic platform for provision of a number of services like e-gov., e-health, e-commerce, e-banking, music and entertainment, universal access to the Internet is a must to empower our citizens. It will not only enable them to connect with their friends, family and communities but also use the online tools and information to help find jobs, start businesses, access healthcare, education and financial services. They will be able to effectively participate in the digital economy.

Building the knowledge economy is the key to solving many of our social and economic challenges as it will help in creating new growth opportunities for the masses in general. A recent study found that the Internet is already an important driver of economic growth in many developing countries. Expanding internet access globally could create another 140 million new jobs, lift 160 million people out of poverty and reduce child mortality. Universal access isn't an end in itself, but it's a powerful tool for change and empowerment.

Optical Fibre Network of UT of Daman & Diu is an ambitious initiative to trigger a broadband revolution in rural and Urban areas. NOFN was envisaged as an information super-highway through the creation of a robust middle-mile infrastructure for reaching broadband connectivity to Gram Panchayats.

About UT Wide Fibre Network

UT Administration of Daman & Diu wants to establish its own Optical Fiber Backbone network for providing various digital connectivity facilities to all Government users as well as citizens of UT of Daman & Diu. This network backbone will create a Robust network infrastructure that can provide all kind of networking requirements to its users.

The UT Administration of Daman and Diu has initiated the process to create a high-bandwidth broadband network covering the entire Administration of Daman and Diu. The Government of UT Administration intends to establish connectivity from Daman to Diu, connectivity from respective block or Gram panchayats to all villages and Broadband connectivity to the households through this initiative. The Department of Information Technology, Daman and Diu, desires to establish the network through a combination of Optic Fiber Cable (OFC) across the length and breadth of the State up to the village level and also have wireless technology deployed where OFC connectivity cannot be given due to topological constraints.

Under the proposed Optical Fibre Network, UT Administration wants to connect following in UT of Daman & Diu:

1. Connectivity between two district headquarters – Daman & Diu.
2. All Government offices.
3. All autonomous organizations associated with Government operations like, District Panchayat, Gram Panchayats, Municipal councils, Government PSUs etc.
4. All Educational Institutions including Government schools, Colleges, Anganwadies etc.
5. All Health care institutions like Government hospitals, CHCs, PHCs, Sub centres etc.
6. All Police stations, Police out-posts, Check-posts etc.
7. All FPS shops.
8. All locations of UT wide surveillance system to be implemented by UT Administration of Daman & Diu.
9. All locations of UT wide Traffic and Check-post Management system of Transport department of UT of Daman & Diu.
10. All Distillaries.

It seems, practically the proposed network should be capable to satisfy all types of high quality and high availability connectivity requirements of UT Administration as well as citizens of UT of Daman & Diu.

In this part the technical bid of only those bidders who have qualified the **Phase I**. I.e. Eligibility criteria will be evaluated.

The technical bid will be evaluated on the parameters described in the following section 5.4

Analysis of technical bid

- In this part, the technical bid will be analyzed and evaluated and the technical; bid marks (St_m) shall be assigned to each bid on the basis of following evaluation matrix

Establishment of UT Wide Fibre Network of UT of Daman & Diu

- Technical Bid Score: The Technical Bid Score ' S_t ' of the Bidder shall be derived as under

$$S_t = (S_{tm}/S_H) \times 100, \text{ where}$$

S_t is the Technical Bid Score

S_{tm} = Total technical bid marks of the bidder under consideration

S_H = Highest total technical; bid marks amongst all evaluated bids.

- The Bid Evaluation Committee reserves the right to modify the evaluation process at any time during the Tender process, without assigning any reason, whatsoever, and without requirement of intimating the Bidder of any such changes. At any time during the process of evaluation the Bid Evaluation Committee may seek specific clarifications from any or all Bidders.

Phase III: Evaluation of Financial Bids:

In this phase, the Financial Bids of the Bidder, who are technically qualified in Phase II, shall be opened. Formula to determine the scores for the Financial Bids shall be as follows.

$$S_f = (F_L/F) \times 100$$

Where,

S_f is the Financial Score

F_L is the value of the lowest Commercial Bid

F is the price quoted in the bid under consideration.

Phase IV: Combined Evaluation of Technical & Financial Bid

- The Total score of the Bidder will be determined as under:

$$\text{Total Score} = (T_s) = (0.7 \times S_t) + (0.3 \times S_f)$$

- The bid of the bidder, who obtains the highest T_s value, will be rated as the Most Responsive Bid. In the event of the same T_s score of bidders, the bid with the highest technical score (S_t) will be rated as the most responsive bid. 3. Preparation of DPR – Detailed Project Report.
4. Preparation of RFP for Selection of Project Management Consultant for establishment, operation and Maintenance of UT wide Fibre Network.

Present Networking set-up in UT of Daman & Diu:

UT Administration of Daman & Diu have established UTWAN (Union Territory Wide Area Network) as per the SWAN scheme of Department of Information Technology, Ministry of Electronics & Information Technology, Government of India. Under this network about 200 Government offices and Government institutions are connected on Leased Line network provided by BSNL at minimum bandwidth of 2 Mbps. This network is a converged network for providing Voice, Video and Data communication facility to all Government offices. This is a private and secure network established as per the standards framed by Department of Information Technology, Ministry of Electronics & Information Technology, Government of India. This network also provided Internet facility to all Government users of UT Administration.

Proposed Optical Fiber Network:

UT Administration of Daman & Diu wants to establish its own Optical Fiber Backbone network for providing various digital connectivity facilities to all Government users as well as citizens of UT of Daman & Diu. This network backbone will create a Robust network infrastructure that can provide all kind of networking requirements to its users.

The UT Administration of Daman and Diu has initiated the process to create a high-bandwidth broadband network covering the entire Administration of Daman and Diu. The Government of UT Administration intends to establish connectivity from Daman to Diu, connectivity from respective block or Gram panchayats to all villages and Broadband connectivity to the households through this initiative. The Department of Information Technology, Daman and Diu, desires to establish the network through a combination of Optic Fiber Cable (OFC) across the length and breadth of the State up to the village level and also have wireless technology deployed where OFC connectivity cannot be given due to topological constraints.

Under the proposed Optical Fibre Network, UT Administration wants to connect following in UT of Daman & Diu:

1. Connectivity between two district headquarters – Daman & Diu.
2. All Government offices.
3. All autonomous organizations associated with Government operations like, District Panchayat, Gram Panchayats, Municipal councils, Government PSUs etc.
4. All Educational Institutions including Government schools, Colleges, Anganwadies etc.
5. All Health care institutions like Government hospitals, CHCs, PHCs, subcenters etc.
6. All Police stations, Police out-posts, Check-posts etc.
7. All FPS shops.
8. All locations of UT wide surveillance system to be implemented by UT Administration of Daman & Diu.
9. All locations of UT wide Traffic and Check-post Management system of Transport department of UT of Daman & Diu.
10. All distilleries.

Establishment of UT Wide Fibre Network of UT of Daman & Diu

It seems, practically the proposed network should be capable to satisfy all types of high quality and high availability connectivity requirements of UT Administration as well as citizens of UT of Daman & Diu.

Services offered to:

- Government – Intranet, Voice, Data, Video and Internet connectivity
- Public – Internet, VPN's, Voice, Data, IPTV, Public services etc.

Detail of Services:

- Video Conferencing (Point to point, multiparty)
- High Speed Intranet / Internet access to all Government departments
- High Speed File and Data Transfers.
- Unprecedented access to State Data Center/NIC
- Phones (IP phones) etc.

Following need to be considered for implementing UT wide Optical Fibre Network:

- Possibility of using Electrical transmission network of UT of Daman & Diu for laying fiber on transmission cable line.
- Integration of UTMAN facilities with Daman & Diu fiber Network and then gradual removal of connectivity established under UTMAN network.
- Integration of NICNET and NKN with Daman & Diu UT Fibre network.
- The bandwidth requirements can be decided after detail survey, study etc. It should be finalized at the time of preparation of DPR.
- Possibility of implementing this project on PPP mode. Also, the consultant has to evaluate different models of PPP (Minimum 3 Models) and submit the report.
