D.O. No. Z.18015/13/2017-MMPC

Date: 15th November, 2018

Dear Sir,

Ministry of Health and Family Welfare has developed a tablet based application for ANMs, called ANMOL (ANM On Line), which empowers ANMs in carrying out their day to day work efficiently and effectively. ANMOL allows ANMs to enter and update the service records of beneficiaries on real / near real time basis. This ensures more prompt entry and update of data as well as improvement in the data quality since the data is being entered "at source" and there is clear accountability for the quality of data. Similarly, NCD application has been developed to help the ANMs with screening and management for common NCD conditions.

2. States/UTs are in the process of procuring tablets for the implementation of ANMOL and NCD application. The process is slow in many States and one of the reasons cited is the higher rate discovered through tendering process than the approved amount in Record of Proceeding (RoP). In view of the above, I am reiterating the RoP remarks that the unit costs/ rates approved for procurement etc. are mere estimations. The actual payment allowed would be as per the 'discovered price' arrived at through GeM (Government e-Market place) portal or if not available on GeM portal, then through a transparent, open bidding process as per relevant and extant purchase rules.

3. In case of any query, please contact Ms Seema Joshi, Deputy Director (MMPC), MoHFW at e-mail: seema.joshi@gov.in or mccsmpu@gmail.com.

Yours sincerely,

(Dr. Manohar Agnani)
