

G-6078

The unit had submitted a demand draft of Rs.3,540/- as Consent to Operate fee on 21/06/2017 against the issued query letter vide no.PCC/DDD/G-6078/DR/WA/15-16/697 dated 17/03/2017.

Therefore, based upon the received application for issue of Consent to Operate along with necessary documents & consent fee the unit was inspected on 27/07/2017 Mr. Madhusudan Tiwari (representative of the unit). At the time of inspection of the unit following observations were noted:

- Display sign board was properly filled with product and waste generation details.
- The unit was in operation at the time of inspection.
- Raw materials used in manufacturing process were ink, Polypropylene granules and tips.
- Products being manufactured were writing pens and refills.
- Manufacturing process involved in the unit were injection moulding and refilling.
- The unit had installed 2 Injection moulding machines, 2 Refilling machines, 2 Grinders, a Mixer, a Cooling Tower and an Air Compressor.
- Housekeeping observed was satisfactory.
- Proper storage facilities were available for raw material and products.
- The unit was availed with septic tank and soak pit for domestic waste water generation.

In view of the above, Operate to Consent may be approved for manufacturing of "Writing pen and Rifills-150 MTPA (by extrusion and assembling only). (no other items)." which falls in **Category-III** under water act and air act along with terms and conditions as mentioned in annexure-I for the period up to 30/06/2018.

Submitted for your perusal and approval, Sir please.
